QRTrax

01 ✓ **Truck Number Capturing**

Captures truck numbers with images for accurate identification.

02 ✓ **Detailed Data Recording**

Records critical details such as quantity and quality of the goods being transported.

03 ✓ **Automated Timing**

Precisely captures loading and unloading times with negligible human interaction.

04 ✓ **Route Tracking**

Utilizes map features for real-time route tracking, ensuring you always know the truck's location.

05 ✓ **Customizable Reports**

Generates comprehensive reports that can be directly downloaded in Excel format for easy analysis and record-keeping.
